

Dining & Hospitality

We recognize how important mealtime is to our customers' overall satisfaction with Providence Place. Great food is only part of the full dining experience.

Trained Chefs

The majority of our menu items are prepared from scratch in our kitchens using local ingredients. Our kitchens are led by trained chefs with meals served restaurant-style. Some of Providence Place's signature items include the homemade soups and dessert cart with assorted cakes, pies, and ice cream.

Community Life

A wide assortment of activities means that residents always have the opportunity to participate in their favorite pastimes or hobbies, as well as to experience something new. With vibrant and purposeful programming, we focus on keeping life interesting & enjoyable. In addition to our dedicated team members, we invite outside professionals to lead discussions, classes, and workshops.

By listening and responding to our residents, we continually find ways to add meaning to their lives.

Providence Place
SENIOR LIVING

Redefining Home

Our thoughtfully designed communities are attractively and comfortably furnished to create an environment that feels like home to our residents. Relationships are especially important to us so we have created a community which fosters friendship and a sense of purpose & belonging.

A Great Value

We want to be the best value in senior living without sacrificing our standards for quality. Our activities and dining programs provide residents with an outstanding quality of life at an affordable price.

Aging in Place

Providence Place offers multiple levels of support services designed to help residents remain as independent as possible and to stay at Providence Place as long as safely possible. We bring the services you want and need directly to your apartment.

Many of our residents wish to make the move to Providence Place their final move. We are happy to support that goal whenever possible.

Make the choice to enhance your lifestyle by living among a community of friends.

Peace-of-Mind

Every individual wants to remain in control of their life. At Providence Place, our goal is to provide support, when needed, while encouraging residents to stay as independent as possible. Many of our residents appreciate that they can always get assistance, if and when they need it. All residents receive these support services to make their lives comfortable and worry-free:

- Nursing & telemedicine support 24 hours/day
- Weekly housekeeping & available laundry
- No worries about home maintenance or utilities
- Three chef-prepared meals daily
- Engaging & purposeful activities
- Fun & interesting outings and trips
- Emotional and spiritual support

A Customized Support Plan

We recognize each resident is a unique individual. That's why we personalize our services for your specific wants and needs. We develop a Customized Support Plan which identifies needs for assistance and a plan for the right amount of services.

Providence Place has a compassionate team of trained caregivers, or Resident Life Associates, who take the time to learn residents' routines and preferences. Their one-on-one support helps residents remain in control of their lives. In addition to the array of basic services above, additional assistance includes:

- Managing and administering medications
- Morning and evening personal hygiene
- Assistance with bathing and dressing
- Assistance with meals
- Support for transfers and mobility
- Cognitive and emotional support

Memory Support

Providence Place takes a holistic approach to supporting residents with memory loss. This means we engage our residents in physical, social, cognitive and spiritual activities that are both meaningful and enjoyable. We provide customized care and programs by offering separate programs for different stages of dementia. This method ensures that residents receive the right level of memory support at the right time without sacrificing their independence.

Connections Club

Residents living with early-stage memory loss are eligible to enroll in our Connections Club. The Club provides additional structure, daily reminders, and small group activities led by a dedicated Club Coordinator.

Connections Neighborhood

Providence Place's Connections Neighborhoods are thoughtfully designed for those residents with moderate to late stage Alzheimer's, or a related disorder. This is a secure, homelike setting that meets our residents' needs for safety and security. Dedicated staff who work in the Connections Neighborhood receive extensive training on providing specialized dementia care.
